National Capital Advises on Program Management Associates (PMA) sale to BCF Solutions

Washington, DC, February 28, 2006 /PRNewswire/ -- BCF Solutions, a professional services firm serving federal clients in the areas of program management and financial support services, today announced its acquisition of Program Management Associates (PMA). National Capital Companies, LLC (Bethesda, MD) initiated the transaction and served as financial advisor to PMA.

"BCF Solution's acquisition of PMA represented an excellent fit for the respective companies by combining complimentary knowledge, skills and customers within the framework of program management services. The enhanced critical mass and combined talents will benefit both our customers and employees" said Patrick Taylor, President and CEO of PMA. In addition, Mr. Taylor stated, "National Capital's proven process and long standing relationships resulted in rapid interest in PMA from both strategic and financial buyers. National Capital was able to deliver multiple high quality offers and negotiate an attractive deal for us. In the end National Capital's efforts delivered the financial result and business fit we had been seeking."

PMA's core services are earned value management, planning and scheduling, project control, acquisition support, cost management, business process re-engineering and contract administration. PMA's current clients include Department of Homeland Security, Federal Aviation Administration, National Weather Service, and the National Oceanic and Atmospheric Administration.

Brady Foster, CEO of BCF Solutions commented, "We are pleased to welcome the PMA team to BCF Solutions and believe the combination of PMA's seasoned management team and existing contracts with key government agencies will help BCF Solutions continue to provide excellent service to our customers and fulfill our robust growth plan."

About Program Management Associates

For the past 17 years PMA has provided a full spectrum of project management support services, focusing on business operations for major system acquisitions in the federal environment. The quality of their work is reflected in long-term relationships with numerous federal customers. For more information visit: www.pma-inc.com

About BCF Solutions, Inc.

BCF Solutions, Inc. is a dynamic, innovative company providing program management and financial support services to the U.S. Federal Government including the Missile Defense Agency, the Army Air and Missile Command, and the National Aeronautical Space Agency (NASA). While a relatively new corporation, having been incorporated in June 2003, BCF has been successful in developing and implementing cost-effective solutions for all of its customers.
